

“Let our Experience be your Advantage”

The competitive marketplace we operate in today is causing progressive companies to examine every aspect of their business to lower their operating costs and increase their productivity. Your equipment is a major investment. The combination of quality lubricants and sampling programs along with Troil's commitment to prompt reliable service, will provide a solid foundation for your equipment's preventative maintenance system. Troil's primary goal is to maximize customer profitability. This is accomplished through our highly trained sales team, a wide range of clean and efficient delivery trucks, a modern warehouse stocked with a complete line of products, and assistance from all our product suppliers.
